

EXTOL BUSINESS INTEGRATOR (EBI) FUNDAMENTALS

This class teaches the fundamentals of the EXTOL Business Integrator including EDI Integrator. It is ideal for those who will be involved in any integration projects.

The class is a combination of lecture and hands on exercises to provide the optimal learning environment. Small class sizes offer individual attention as well as the opportunity to network and interact with other EXTOL Business Integrator users.

Classes are from 9:00am to 5:00pm each day, with the exception of the last day, which is 9:00am - 3:30pm.

Objectives: At the end of this five-day class, the student will be able to:

- Import and Create Schemas of different types including XML, Database, Flat File, Spreadsheet and EDI Standards
- Build Transformation Rulesets utilizing system and custom actions
- Automate Operations with Business Process Scripts and Business Process Script Templates
- Implement Listeners and Events
- Create and Maintain EDI and Application Endpoints and their associated Collaborations
- Implement WebServices for both the Consumer and Provider
- Monitor Activities
- Archive/Unarchive necessary objects

Prerequisites: The prerequisites for the EXTOL Business Integrator class are:

- Installation of the EXTOL Business Integrator.
- Completion of EXTOL Business Integrator Tutorials. The tutorial can be found on the Documentation CD and/or downloaded from our Customer Zone/TechWeb website.

Pricing: \$2,500 per attendee
