

EXTOL DATA SYNCHRONIZER (EDS) FUNDAMENTALS for the IT USER

This self paced training class teaches the fundamentals of the EXTOL Data Synchronizer (EDS). It is intended for technical users who are responsible for installation, configuration, integration, and support aspects of the Data Synchronization Projects.

Your company will have access to the training materials for 30 days, allowing for multiple users to learn EDS, and a 30 minute Q&A session with a Trainer.

Course Objectives:

- Understand the configuration of the EXTOL Data Synchronizer
- Create EBI objects used for Backend Integration
- Import Data
- Understand the Message Types and Workflow
- Monitor Activities, including error handling
- Perform Administrative tasks, such as Creating Users

Prerequisites: The prerequisites for the course are:

- Current version of EDS installed
- Basic experience using the EXTOL Business Integrator and the EXTOL Data Synchronizer

Pricing: \$600 for 30 day unlimited access
