

EXTOL SECURE (ESX) FOR AS2 FUNDAMENTALS

This course provides the fundamentals of AS2 and EXTOL Secure (ESX). It is ideal for those responsible for AS2, the EDI Coordinator, or those who run the daily EDI operations.

The Self Paced e-Learning format starts with the basics of AS2, and works through all the fundamental steps for a successful AS2 implementation using EXTOL Secure.

Your company will have access to the training materials for 30 days, allowing for multiple users to learn ESX, and a 30 minute Q&A session with a Trainer.

Course Objectives: At the end of this course, the student will:

- Understand the basics of AS2
- Configure ESX
- Create, Export, and Import Keys and Certificates
- Establish a new Trading Partner
- Run the daily inbound processes
- Run the daily outbound processes
- Debug an error
- Understand and use the logs available in the systems
- Integrate ESX with the other EXTOL products

Prerequisites: The prerequisites for the EXTOL Secure course are:

- Basic experience using the EXTOL EDI Integrator or the EXTOL Business Integrator
- An installed version of ESX

Pricing: \$600 for 30 day unlimited access
